ABOUT.

Yoho! I'm Janice Ng, a Product Designer who enjoys tinkering with digital mediums and observing moments of human behaviours. With my design skills, I aim to solve the small pains in life and bridge the gap of inclusive design to craft delightful experiences that people can cherish.

EXPERIENCES.

PDFTron . Product Designer   2018 - Present

I currently work with the Web and Mobile teams to deliver a cohesive, cross-platform document viewer/annotator SDK solution. To enhance this B2B product, I undergo high fidelity prototypes with stakeholders and track user feedback, as well as building a Design System for internal/external use.

City of Surrey . User Experience Designer   2015 - 2018

At Surrey City Hall, l helped envision the future of online service delivery for citizens and to create the City's digital design standards. My roles included user research, user interface design, and facilitating design workshops for various digital products (MySurrey Portal, the City website, and individual online services).

IBM . User Experience Design + Visual Design Intern   2014

I assisted both the User Experience and Samples Team under the Business Analytics division. Here, I designed icons and produced concepts for IBM products, as well as created mockups and implemented them into report templates and dashboards to help business individuals better visualize their metrics.

INVOLVEMENT.

Game of Apps . Design Mentor   2018 - Present

As a design mentor for a program to teach high school students design and mobile development, I help develop the 24-week design curriculum, as well as create and deliver lecture materials. During lab activities and projects, I engage with the students to provide project directions.

Here is a one-pager about me. Let's chat over bubble tea if you want to know more :)

SKILLS.

User Research, Mockup, Prototype, System Design, Design Workshops, Project Management, Photography

TOOLKIT.

Sketch, InVision, Axure, Adobe Master Suite, HTML5, CSS3

EDUCATION.

BA in Design with Distinction
Simon Fraser University
Interactive Arts + Technology
2010 - 2016

Certification in 2D Design
Emily Carr University
Continuing Studies
2015 - 2017

UNIQUENESS.

I can speak fluent English, Cantonese and French.

I can play the piano, clarinet and violin.

I have a CPR-C first aid certification.

Awarded Surrey's Top 25 Under 25
2017

Awarded 2nd at SIAT Showcase Competition
2013
